

This is the PDF Marketplace.

Marketplace because PDFs take TIME and LABOR and HUMAN CAPITAL. **PDFs are not free.** I have invested large amounts of capital into the creation of twelve PDFs, some made with PDF-specific teams of collaborators.

I am very fair. The cost for one PDF is **one PDF**. I do not charge interest, taxes, bonus fees, finder's fees, hidden fees, etc. I only ask for compensation in full.

(I am also very generous. If you do not want to send a PDF, you can wire .1BTC into my account. Contact my [gmail](#) if you would like to pursue this discount option whereby a fraction of an object can get you a full object in return.)

To be accepted as payment, PDFs must obviously be in PDF format. Payment PDFs can be of any size and from any source. Any PDF will do. I do not care where you got your PDF, unless it was criminally obtained, in which case I ask you to refrain from sending it my way for reasons of a prior record.

I've put together an [Are.na channel](#) which will contain all mailed-in PDFs. These PDFs will be public. Yes, the cost of a PDF is a **public PDF**. You can upload directly to the channel or else email me the PDF. I do not accept PDFs by snail mail since then **it is no longer a PDF**.

Once you've sent me a PDF, I will send you one in return. Each PDF will become available on the 12th of each month, beginning January 12th. The PDF marketplace will take a vacation beginning in June or July, and will resume in September. PDF payments can be submitted any time in the month in exchange for that month's PDF. In other words, a PDF payment made between March 1st and March 31st will be in exchange for the March 12th PDF. The one exception to this rule is that payment for the January 12th PDF is currently (12/21) open. **You cannot pick which PDF you wish to pay for.**

Email pdfmarketplace@gmail.com if you wish to place an order.
